EDUCATION

Jamia Hamdard

Bachelor of Technology in Computer Science & Engineering (graduating in 2026)

New Delhi, India

2023 to 2026

EXPERIENCE

Data Science Intern

Sept. 2025 to Present

Working with [Prof. Aaditya Dar](#), Economist at Amazon

- Implemented a scalable data pipeline that cleaned, standardized, and structured around 2 million government asset declarations for public use.
- Automated the extraction of key attributes by fine tuning a suite of LLMs (BART-base, FLAN-T5, GPT-2, Qwen-2) on a custom dataset.
- Built a data pipeline architecture and model approach for entity extraction and record linkage across multi year personnel data

Research Intern

Mar. 2025 to Aug. 2025

Michigan State University (with [Prof. Prabhat Barnwal](#))

- Built the Peer Knowledge Exchange Platform to improve speed, accessibility, and user experience for government officers in Punjab (India)
- Deployed "Sewa Assist," a WhatsApp chatbot to help officers connect and access program resources faster
- Integrated an on site chatbot that reduced user friction and streamlined resource discovery through smart keyword recognition
- Delivered a solution with Next.js and implemented version control via GitHub for maintainability and scalability

Full Stack Developer Intern

Dec. 2022 to Jan. 2023

FTK Center for Information Technology, Jamia Millia Islamia

New Delhi, India

- Led full stack development of alumni community web app with 2,000+ users, improving usability and engagement using React, Node.js, and MySQL
- Optimized site architecture for mobile responsiveness and reduced page load times by 20%
- Collaborated in a 4 member Agile team to ship 3 major features in 6 weeks, improving site usability and alumni engagement

WORKING PAPERS AND PROJECTS

CATS: Culturally Adaptive Therapeutic System | Final Undergraduate Project

An agentic system for physiotherapists to create personalized exercise videos that align with patients' cultural backgrounds, showing exercises through culturally appropriate demonstrations.

Detecting Design Theater in Reasoning Models | LLM Benchmarking

Co-Authors: Kashif Imteyaz, Daniel Lee, Md Kaif Imteyaz, Saiph Savage

A benchmark for exposing when LRM generates convincing rationales for unimplemented features, quantifying the authenticity gap across creative reasoning tasks.

Ink2Info: Digitizing Health Informatics | Computer Vision, OCR

A smart interface capturing pen strokes as vector data to digitize prescriptions using ML-based OCR. It automatically links records to the National Health ID, preserving traditional clinical workflows.

PROJECTS

CATS: Culturally Adaptive Therapeutic System MediaPipe BlazePose, Python Repository	2025
• Built a privacy first physiotherapy platform with real time AI posture analysis and automated exercise monitoring • Implemented intelligent voice coaching with fully local processing to ensure patient data privacy	
OceanDataSync: Oceanographic Data Pipeline Python Repository	2025
• Developed automated pipeline aggregating and standardizing datasets from multiple authoritative ocean data sources (NOAA, Copernicus Marine, Argo, NCEI) • Implemented chunked processing, YAML configuration, robust retry logic, and detailed CSV/JSON logging	
De-Tail: Agentic AI Search Assistant React, OpenAI API, Tavily API Repository	2025
• Developed experimental chatbot revealing the reasoning process and step by step thought chain for transparency • Integrated OpenAI Reasoner with Tavily API for real time web search and retrieval augmented generation	
Anti Corrupt Infrastructure React, Node.js, OpenRouter (OpenAI) Repository	2025
• Developed AI based platform to ensure transparency in infrastructure projects and prevent corruption • Developed automated systems for project tracking, fund allocation, and milestone verification	
Vulture: Vulnerability Scanner React, Node.js, OWASP ZAP API Demo Video	2023
• Built web app identifying vulnerabilities using OWASP ZAP API during 2 day hackathon • Ranked among top 10 projects out of 100+ submissions	

TECHNICAL SKILLS

Programming: Python, JavaScript	Deep Learning & CV: PyTorch, OpenCV, Scikit learn, Object Detection
ML Model Development: Fine Tuning, Transfer Learning, Model Quantization, Evaluation & Benchmarking	
LLM & NLP: BART, FLAN-T5, GPT-2, Qwen, LoRA/QLoRA, RAG, Prompt Engineering	
Tools & Platforms: Jupyter, Cursor, Figma, Postman, GitHub	
Web Development: React.js, Node.js, Express.js, Tailwind, Shadcn/ui	Databases: MySQL, Supabase, PostgreSQL

CERTIFICATIONS

Artificial Intelligence Summer School	May 2024 & July 2023
IIIT Delhi	New Delhi, India
Getting Started with Artificial Intelligence	July 2025
IBM SkillsBuild	Online
Human Computer Interaction	Apr. 2025
NPTEL	Online
Data Fundamentals	July 2024
IBM SkillsBuild	Online

EXTRACURRICULAR ACTIVITIES

Core Member and Web Contributor	2023 to 2024
Google Developer Groups, Jamia Hamdard	New Delhi, India
• Contributed to design and development of chapter's official website using React.js and Tailwind CSS • Organized technical workshops, study jams, and community events to foster developer engagement on campus	
Volunteer Frontend Developer	Apr. 2024
International Conference on Sustainability and Digitalization, Jamia Hamdard	New Delhi, India
• Developed official ICSD 2024 conference website featuring call for papers and speaker profiles • Implemented interactive UI components with a focus on accessibility and mobile responsiveness	
Member, Programming and Animation Team	2022
E Cell JMI	New Delhi, India
• Developed interactive content and digital assets for campus wide entrepreneurship events • Collaborated with cross functional teams to create engaging promotional materials
